

Get a 5 year listing for only \$200.

List your company for as little as 11 cents per day!

MJ Guides has developed the next generation of city and personal travel guides, which are **free** to all of the sites visitors. Users of our systems are able to look at any listing within our city guides, as well as create and print out a personal travel guide generated from the infinite listings within our business networks. Within the personal travel guides, users will have the ability to select all of the individual business listings they would like to include within their personal guide, which will ultimately be included in their customized document. Each listing can be updated as often as the advertiser would like, and done so at no charge. In order to have your establishment included in any of these applications it must be listed within our network. *Listings are on display now, and the custom guide will be available to users in Fall 2009.*
